

OPTIMARA®

Hard Goods Catalog

2009

Consumer Support

Optimara can be helpful by providing various sources of information and reference for customers at our web sites

<http://www.optimara.com> and <http://www.optimara.info>

Also, questions are answered as soon as received at our e-mail address
sales@optimara.com

Certification

In 2002, Optimara applied for and received a certification for its foliage products. The certification "Proudly Grown in the USA" denotes quality and origin of products grown and sold in the USA. By displaying the official certification mark as shown here, Optimara is displaying the fact that it is creating jobs in the USA and producing a product in this country which meets or exceeds quality standards set forth by the Produce Marketing Association (PMA).

Social Responsibility

In 1997, Optimara developed a Social Responsibility Program covering those who provide imported goods and services to the company. This Program establishes strict working guidelines and humanitarian conditions under which items are to be manufactured in countries outside the United States.

The objective of this program is to assure a safe and equitable working environment for foreign workers and prevent their exploitation. Since the inception of the program, this objective has been met by resolving several issues where working conditions have significantly been improved above the normally required standards. The program has been successful for the employee, who has a more enjoyable working experience, and the employer, who has a more stable, productive workforce. The results of this program make it possible for Optimara and its customers to enjoy better products, consistent in quality, at a fair and reasonable price.

We are proud of the fact that we can not only offer a high quality value product, but we can proudly say that all Optimara products are produced in a *Socially Responsible* working environment.
